SUMMARY

Frontend Developer with 4+ years of experience building responsive, scalable web applications using React.js, Next.js, JavaScript, TypeScript, Redux, and Material UI. Experienced in server-side rendering, reusable component architecture, REST API integration, state management, and frontend performance optimization. Working knowledge of Node.js, Python, FastAPI, and PostgreSQL, with experience contributing to full-stack applications, ERP/LMS platforms, e-commerce, hospitality, and AI-enabled features.

SKILLS

Frontend:	React.js, Next.js, JavaScript, TypeScript, HTML5, CSS3, responsive UI
UI Libraries:	Material UI (MUI), Tailwind CSS, reusable component architecture
State Management:	Redux, MobX, Context API
Backend:	Node.js fundamentals, Python, FastAPI, REST APIs
Databases:	PostgreSQL, MongoDB, SQL fundamentals
CMS and Integrations:	Sanity.io, Strapi, GraphQL, WhatsApp/Interakt integrations
Tools:	Git, GitHub, Jira, Postman, Metabase, Azure DevOps
Concepts:	SSR, API integration, RBAC, performance optimization, CI/CD fundamentals

EXPERIENCE

Sparity Soft Technologies Pvt. Ltd. **Dec 2025 – Present**

MERN Stack Developer

Techouts Solutions Pvt. Ltd. **Nov 2021 – Dec 2025**

MERN Stack Developer

PROJECTS

AI4AP **Dec 2025 – Jun 2026**

AI-enabled application platform

- Contributed to frontend development using React.js, Next.js, reusable components, and state management patterns.
- Worked on integrating AI-enabled functionality with application workflows and backend APIs.
- Supported modular frontend architecture and micro-frontend concepts to improve separation of application features.
- Collaborated on backend integrations and data workflows connecting user interfaces with application functionality.

Education ERP / LMS / Job Portal **Jun 2026 – Present**

Education and student management platform

- Develop features for student registration, admissions, enrolment, course assignment, batch allocation, and dashboards.
- Build responsive interfaces using React.js, Next.js, Redux, and Tailwind CSS, integrating APIs for application workflows.
- Contribute to backend integrations using Python/FastAPI and PostgreSQL, with MongoDB for applicable data workflows.
- Support role-based access control, tenant-specific configurations, reporting, and Excel export functionality.
- Integrate WhatsApp messaging through Interakt and support dashboards and analytics using Metabase.
- Contribute to LMS document and video management workflows and cloud-based application integrations.

IHCL – TajHotels.com **2022 – 2025**

Hospitality and hotel booking platform

- Developed responsive web pages using React.js, Next.js, Material UI, and reusable frontend components.
- Integrated Sanity.io CMS content to support dynamic pages and content-driven application experiences.
- Contributed to hotel booking, booking modification, and cancellation journeys through REST API integrations.
- Used MobX for application state management and collaborated with cross-functional teams to resolve functional and UI issues.
- Worked on image loading, rendering, and Core Web Vitals improvements to enhance page performance and user experience.

SSBeauty.in **2022 – 2023**

E-commerce beauty products platform

- Developed reusable React components and dynamic pages using content managed through Strapi CMS.
- Contributed to Homepage, Account, Wishlist, Product Listing Page (PLP), and Product Detail Page (PDP) functionality.
- Integrated Magento GraphQL queries and mutations to retrieve product information and support e-commerce workflows.
- Implemented cart and order-related functionality using frontend state management.

ACHIEVEMENTS

Fantastic Frontier – Techouts **2024**

Recognized for contributions and performance as a Frontend Developer.

Certificate of Appreciation – Techouts **2023**

Recognized for presenting Web Technologies during TechTalk, a cross-competency cognizance program.

Declaration: I hereby declare that the information provided above is true and correct to the best of my knowledge.
